COUNTRY MUSIC
A FILM BY KEN BURNS

Filled with memorable musical moments, interviews with more than 80 country music artists, and evocative footage, Country Music weaves an unforgettable story that is both intimate and sweeping. Among the storytellers are historian Bill Malone and a wide range of country artists such as Marty Stuart, Rosanne Cash, Vince Gill, Reba McEntire, Merle Haggard, Dolly Parton, Willie Nelson, Dwight Yoakam, Emmylou Harris, Kris Kristofferson, and Naomi and Wynonna Judd, as well as studio musicians and record producers. The film uses more than 3,200 photographs and over two hours of archival footage, including rare and never-before-seen photos and footage of Jimmie Rodgers, Johnny Cash and others. 8x60 HD

WHEN WHALES WALKED

They are the most iconic animals on Earth—whales and birds of prey, ferocious crocodiles and magnificent elephants. To see them is to marvel—and to ask a surprisingly challenging question: Where did these amazing creatures come from? When Whales Walked: An Epic Tale of Evolution takes us on a global adventure to find the answer. 2x60, 1x120 HD

BACK TO THE MOON

On the 50th anniversary of Apollo 11’s historic moon landing, NOVA looks ahead to the hoped-for dawn of a new age in space travel. This time, governments and private industry are sharing the work of reaching our nearest celestial neighbor. Join the next generation of engineers that aim to take us to the Moon, and discover how our legacy of lunar exploration won’t be confined to the history books for long. 1x60 HD
HISTORY

SUMMER OF 50TH ANNIVERSARIES

Woodstock
Three Days That Defined a Generation

In August 1969, nearly half a million people gathered at a farm in upstate New York to hear music. What happened over the next three days, however, was far more than a concert. It would become a legendary event, one that would define a generation and mark the end of one of the most turbulent decades in modern history. Occurring just weeks after an American set foot on the moon, the Woodstock music festival took place against a backdrop of a nation in conflict over sexual politics, civil rights and the Vietnam War. Woodstock: Three Days That Defined a Generation turns the lens back at the audience, at the swarming, impromptu city that grew up overnight on a few acres of farm land. 1x82, 1x99 HD

Chasing the Moon
A Film by Robert Stone

Chasing the Moon, a film by Robert Stone, recasts the Space Age as a fascinating stew of scientific innovation, political calculation, media spectacle, visionary impulses and personal drama. Utilizing a visual feast of previously overlooked and lost archival material—much of which has never before been seen by the public—the film features a diverse cast of characters who played key roles in these historic events. 6x60, 3x120 HD

Stonewall Uprising

This feature-length documentary explores the dramatic event that launched a worldwide rights movement. Told by those who took part—from drag queens and street hustlers to police detectives, journalists and a former mayor of New York—and featuring a rich trove of archival footage, Stonewall Uprising revisits a time when homosexual acts were illegal throughout America, and homosexuality itself was seen as a form of mental illness. 1x83 HD
Reconstruction: America After the Civil War
Henry Louis Gates, Jr. presents the definitive history of the transformative years following the American Civil War, when the nation struggled to rebuild itself amidst profound loss, massive destruction and revolutionary social change. The film also explores the flowering of African American art, music, literature and culture as tools of resistance in the struggle against Jim Crow racism, and the surge of political activism that marked the launch of iconic civil rights organizations. 4x55, 2x120 HD

Decoding Watson
It is impossible to overstate the importance of James Watson’s contributions to science or the implications of his work for contemporary society. Throughout his life, Watson has continued his scientific work, from the laboratory at Cold Spring Harbor in New York. Not without controversy, he yet remains one of the most enduringly influential scientists alive. Targeting the big questions, writing the textbook that defined molecular biology, energizing the “war on cancer” and helping to map the human genome, he has served as a prime mover of the great biological revolution that affects us all. Decoding Watson is the first major biographical documentary on the life and work of this legendary figure in science and contemporary culture. 1x84 HD

The Swamp
Once more than 100 miles long and 60 miles wide, the impenetrable grass, water and wildlife of the Everglades originally covered most of south Florida. One journalist decried it as a “vast and useless marsh.” Today, the area is home to seven million residents, 40 million annual tourists and the world’s largest concentration of golf courses. The Swamp tells the dramatic story behind this transformation, examining the history, ecological collapse, and potential resurrection of one of the Earth’s largest and most unique ecosystems. The Swamp recounts the work of the politicians, businessmen and engineers who transformed the Everglades and cleared the way for the development that would ultimately destroy it, as well as the activists who sounded the alarm about its future and lobbied for its preservation and revival. 1x114, 2x60 HD

The Siege of Mecca
On November 20, 1979, hundreds of heavily armed men took over the Grand Mosque of Mecca. Within minutes, they transformed the holiest shrine of Islam into a fortress—and a trap for almost 100,000 pilgrims inside. The ensuing 15 days of battle cost hundreds, if not thousands, of lives, shook Saudi Arabia to its foundations, destabilized the Middle East and pushed the global balance of power to the brink of collapse. After more than five years of research, with exclusive access to first-hand accounts and private archives from Arab, French, German and American military, intelligence and civilian sources, this film finally reveals what really happened during the siege, what consequences it had and how it still affects the world today. 1x52 HD

Sealab
On a February day in 1969, off the shore of northern California, a U.S. Navy crane carefully lowered 300 tons of metal into the Pacific Ocean. The massive tubular structure was an audacious feat of engineering—a pressurized underwater habitat, complete with science labs and living quarters for an elite group of divers who hoped to spend days or even months at a stretch, living and working on the ocean floor. The Sealab project would push the limits of ocean exploration the same way NASA was pushing the limits of space exploration. As Americans were becoming entranced with the effort to land a man on the moon, these divers, including one of NASA’s most famous astronauts, were breaking depth barrier records underwater. Sealab tells the little-known story of the daring program that tested the limits of human endurance and revolutionized the way humans explore the ocean. 1x53 HD
World War Speed
It has long been known that German soldiers used a methamphetamine called Pervitin in World War II. But have tales of Nazis on speed obscured the other side of the story: of the massive use of stimulants by British and American troops? Did total war unleash the world’s first pharmacological arms race? And in the face of industrial slaughter, what role did drugs play in combat? Now, historian James Holland is on a quest to dig deeper and unearth the truth behind World War Speed. 1x60 HD

Jewish GIs of WWII
*Jewish GIs of WWII* tells the profound and unique story of the 550,000 Jewish men and women who served in World War II. They were held as POWs and awarded honors for merit and valor. Thousands were wounded and 11,000 were killed in action. Ten thousand Jewish women joined up as well, disregarding their parents’ warnings that the military “was no life for a nice Jewish girl.” In the midst of it all, they fought a second, more private battle against anti-Semitism within the ranks. 1x55 HD

Dunkirk: The New Evidence
*Dunkirk: The New Evidence* tells the story of the real miracle of Dunkirk. For decades the Navy were the heroes; in this moving special we reveal that the miracle was not just down to the Little Ships, but to the massive sacrifices of the Royal Air Force. 1x60 HD

D-Day 360
Focusing on the most important strip of Omaha beach that day—the exit at Vierville-sur-Mer—*D-Day 360* strips D-Day back to its raw data to reveal how the odds of victory, in the greatest gamble of World War II, swung on what happened over a five-hour period on a five mile stretch of French coastline. Data gathered though forensic laser scanning, 3D computer modeling, and eye-witness accounts bring the battlefield to life as never before. 1x54 HD

Holocaust Escape Tunnel
For centuries, the Lithuanian city of Vilnius was one of the most important Jewish centers in the world, earning the title “Jerusalem of the North,” until the Nazis destroyed it in World War II. About 95% of its Jewish population of Vilna, its name in Hebrew and Yiddish, was murdered and its synagogues and institutions were reduced to ruins. The Soviets finished the job, paving over the remnants of Vilna’s famous Great Synagogue, for example, so thoroughly that few today know it ever existed. Now, NOVA follows an international team of archaeologists trying to recover this lost world. They will excavate the remains of its Great Synagogue and uncover one of Vilna’s greatest secrets: a lost escape tunnel dug by Jewish prisoners inside a horrific Nazi execution site. 1x55 HD

The Mayo Clinic
*The Mayo Clinic* chronicles the history of this unique institution, from its roots as an unlikely partnership between a country doctor and the Sisters of Saint Francis (forged in response to a devastating tornado in the 1883), to its position today as a worldwide model for collaborative patient care, research and education. *The Mayo Clinic* tells the story of the history and pioneering work of what many believe is the best medical center on Earth. 1x116, 2x60 HD

This season features an array of celebrated guests who are cultural trailblazers with fascinating family stories, including Academy Award winner Marisa Tomei; Emmy and Golden Globe Award winners Felicity Huffman, Laura Linney and S. Epatha Merkerson; and actors Michael K. Williams, Andy Samberg, Chloe Sevigny and Kal Penn. Season Five also includes superstar author George R.R. Martin; acclaimed journalists Christiane Amanpour, Ann Curry, Joe Madison and Lisa Ling; bestselling author and Facebook executive Sheryl Sandberg; TV hosts Seth Meyers and Michael Strahan; artists Marina Abramovic and Kehinde Wiley; politicians Marco Rubio, Tulsi Gabbard and Paul Ryan; Academy Award-winning filmmakers Alejandro Inarritu and Michael Moore; and comedians Tig Notaro and Sarah Silverman. 10x52, Seasons 1–4: 47x60 HD
The Eugenics Crusade tells the story of the unlikely—and largely unknown—campaign to breed a “better” American race, tracing the rise of the movement that turned the fledgling science of heredity into a powerful instrument of social control. Populated by figures both celebrated and obscure, The Eugenics Crusade is an often-revelatory portrait of an America at once strange and eerily familiar.

Boss: The Black Experience in Business

The history of business and entrepreneurship lies at the heart of the American story, but often absent are the names and experiences of African Americans who, from the country’s earliest days, have embodied the qualities of innovation, risk-taking and determination to forge a path toward a better life—which is at the heart of the American entrepreneurial spirit. Boss: The Black Experience in Business, by Peabody and Emmy Award-winning filmmaker Stanley Nelson, seeks to illuminate, educate, and inform, by examining more than 150 years of African American men and women—from those bound by bondage, to moguls at the top of multi-million dollar empires.

Crossing the Empty Quarter
In 1930 Omani Sheikh Saleh bin Khalut and Englishman Bertram Thomas made the first recorded crossing of the Rub Al Khali, the Empty Quarter—the vast, arid wilderness at the heart of Arabia. Now three men, two Omani explorers and a Briton, take on the challenge to recreate that journey and walk from Salalah in Oman to Doha in Qatar—a journey of more than 1,000 kilometers across one of the most dangerous places in the world. In this terrifying challenge they battle over giant dunes and through vicious sandstorms, searching constantly for wells as their water supplies run dangerously low. Can they make it, or will sickness, fatigue and injury defeat them? Their struggle is an inspirational story of courage and determination. 1x55 HD

AFRICAN BAMBI
On the great plains of Africa, predators must seize any opportunity to gain the upper hand. The cheetah and gazelle are natural opponents, both compelled by two profoundly embedded instincts—one to chase and the other to flee. This is the story of two fawns, living parallel lives—one, an impala resident in the southern acacia forests, and the other, a Thompson’s gazelle soon to be on the march with the great herds in the grasslands. Both must outrun the hunters to survive in a relentless and deadly contest in the East Africa savannah, one of the most beautiful places on Earth. 1x77 HD

CURRENT AFFAIRS

PROPAGANDA
THE ART OF SELLING LIES

It may feel as if the present-day political world is spinning out of control, as are the various means of selling political thought. This program analyzes what is behind past and current propaganda, and questions what exactly is “the truth.” Propaganda identifies the predominant means and methods of persuasion that have been employed by those seeking power, often at any cost. The documentary looks back at key epochs of history when propaganda defined nations and kept populations in check. The time-honored tools of propaganda have included novels, poetry and oratory; statuary, paintings and posters; theatre, film and television; architecture, music and Internet technology. 1x57, 1x90 HD

Documenting Hate: Charlottesville
Since August 2017, FRONTLINE and ProPublica have been investigating the resurgence of violent white supremacists in America. In Documenting Hate: Charlottesville, correspondent A.C. Thompson methodically tracks down some of those at the center of the infamous and deadly rally in Charlottesville, Virginia—revealing that one participant in the violence was an active-duty Marine, and another worked for a major defense contractor and held a U.S. government security clearance. The investigation also shows just how ill-prepared law enforcement was to handle an influx of white supremacists from across the country, some of whom had been part of a series of earlier violent confrontations in California and descended on Charlottesville specifically to fight. 1x54 HD

Documenting Hate: New American Nazis
In the wake of the 2018 deadly anti-Semitic attack at the Tree of Life synagogue in Pittsburgh, FRONTLINE and ProPublica present Documenting Hate: New American Nazis. It’s a new investigation into white supremacist groups in America—in particular, a neo-Nazi group, Atomwaffen Division, that has actively recruited inside the U.S. military. This joint investigation documents the group’s terrorist objectives, examines how civilian and military authorities have responded, and shows how the group gained strength after the 2017 Charlottesville rally. 1x54 HD

Sex Trafficking in America
This new documentary from FRONTLINE tells the unimaginable stories of young women coerced into prostitution—and follows one police unit that’s committed to rooting it out. Award-winning director Jezza Neumann and producer Lauren Mucciolo embed with the Phoenix police unit that’s tackling child sexual exploitation, offering an inside look at the lucrative industry through unique access to a series of undercover, high-stakes police operations. They also film with young women who have escaped the trade. 1x60 HD
Trump’s Trade War
President Donald Trump’s decision to put tariffs on billions of dollars in Chinese imports in 2018 shocked the world—and launched a perilous confrontation between the world’s two largest economic superpowers. From FRONTLINE producer Rick Young and his team and NPR correspondent Laura Sullivan, Trump’s Trade War takes viewers on the ground in both the U.S. and China, drawing on business and government insider accounts to offer an eye-opening look at the increasingly competitive rivalry between the two countries—a rivalry that extends well beyond just trade and tariffs. 1x60 HD

Charley Pride: I’m Just Me
Charley Pride stands as a symbol of hope and an example of the ways music can influence societal change. He arrived in Nashville in 1963, a year in which the Tennessee capital was the site of sit-ins and racial violence. Two years later, he was a recording artist on a major label, and in short time he became a superstar whose path would lead him to a Grammy Lifetime Achievement Award and a place in the Country Music Hall of Fame. Charley Pride’s story is a lesson in the ways that art and expression can triumph over prejudice and defeat injustice. Raised as less than a citizen in brutally segregated Mississippi, Charley Pride’s buttery voice and steely resolve helped him to a place as one of the world’s most impactful musical artists. 1x78 HD

When the New Horizons spacecraft whizzed by Pluto in 2015, onlookers were dazzled by the breathtaking images it beamed home. They revealed a never before seen alien landscape—a world of mountains made of ice mixed with plains of frozen-solid methane and nitrogen. And now, New Horizons is at it again, this time to Pluto and Beyond. In 2019, the craft flew an object known now as MU69, which is believed to be a primordial building block of the solar system. This flyby sheds light on one of the least understood regions of our solar system: the Kuiper Belt.

We may be witnessing the dawn of a bold new era of human activity in space for science and exploration—but also for profit. An explosion of private companies is sparking the development of new technologies and lowering costs to bring space closer than ever. And at the same time, NASA is returning to crewed spaceflight with gusto, building a rocket more powerful even than the storied Saturn V to take us far beyond Earth.

But this is not the first time we’ve seen signs of a rocketry renaissance. In the 1980s, there was a boom—and bust—in the privatization of space travel. Will today’s optimism about companies like SpaceX and Virgin Galactic prove prescient, or nothing more than hype and wishful thinking?
**Addiction**

NOVA joins scientists and sufferers alike as they probe the mysteries of addiction. They are discovering that addiction is not simply a lack of willpower; drug abuse produces significant chemical changes in the brain—changes that are hard to control, and hard to reverse. What’s worse, many addictions start with prescription or even over-the-counter painkillers for entirely legitimate ailments. And it is not just drugs—alcohol, sugar, caffeine, even exercise can incite addictive behaviors. In the midst of the opioid crisis, and in a world in which many other diseases can be traced to addictive behavior, NOVA investigates: how do addictions work?

**Decoding the Great Pyramid**

The 6 million-ton Great Pyramid of Giza is the last surviving wonder of the ancient world. How did the Egyptians engineer the mighty pharaoh Khufu’s tomb so precisely, with none of today’s surveying and power tools? And who were the thousands of laborers who raised the stones? *Decoding the Great Pyramid* presents the latest evidence from groundbreaking archaeological research that has transformed our understanding of the ancient world’s most ambitious engineering project, revealing a “lost city” and intimate details of the lives of the laborers and officials who toiled on the vast construction.

**SOMETHING IN THE AIR**

Pollution is killing tens of thousands of people every day around the world. Cities across Asia and Europe have had to shut down and stop traffic to manage “Airpocalypse” pollution events when the air is unsafe for the people who live there. But air pollution is a major killer everywhere, even places we think of as safe. Pollution causes a range of respiratory diseases, and even short exposure can change how our DNA functions. New science is finding that microscopic bits of air pollution may be able to travel from your nose directly into your brain, and could be causing dementia in humans. How unsafe is the pollution we can’t even see? *Something in the Air* explores these and other questions about the most precious resource we have—air. **1x60** HD

Peep and the Big Wide World
SCIENCE FOR PRE-SCHOOLERS!
Peep is a groundbreaking animated series that gives wings to the innovative idea of teaching science to preschoolers. Young viewers follow a newly-hatched chicken (Peep), a smart and sassy robin (Chirp), and an endearingly egotistical duck (Quack) on all their wide-eyed adventures—from discovering shadows, to investigating mysterious tracks, to learning about gravity (sometimes the hard way!). 34x23

Arthur
EVERYONE’S FAVORITE AARDVARK!
Based on the popular children’s books by Marc Brown, Arthur chronicles the adventures of Arthur (an eight-year-old aardvark) through engaging, emotional stories that explore issues faced by real kids. Whether showing the importance of honesty, addressing how to deal with a crisis, or modeling positive sibling relationships, Arthur tackles each story with empathy and humor. Aimed at viewers 4–8, the program aims to foster an interest in reading and writing, and to encourage positive social skills. Arthur is TV’s longest-running children’s animated series. 200x30 + 3, 1-hour specials HD

Word World
BUILDING READERS!
In the Emmy Award-winning series, WordWorld, words come alive, save the day, and become a child’s best friend in the first preschool series where words are truly the stars of the show. WordWorld is a colorful, vibrant world of words and is home to the lovable, legible WordFriends—animals whose bodies are made up of the letters that spell the word they are. The WordFriends go on comic adventures and face challenges that can only be resolved with the right word. That word is built letter by letter, sound by sound, and once the word is built, it comes alive into the thing it is! Word building reinforces the pre-reading concept that letters and their sounds make words, and that words have real meaning and power. The series also introduces literacy concepts that preschoolers will encounter as they become readers, such as sounding out letters and rhyming. reading. 45x27 HD

Time Warp Trio
HISTORY WITH A TWIST!
What if three 10 year-old boys got their hands on a book that could send them anywhere in time or space? And what if their three great-granddaughters, living in the year 2105, had the exact same Book? Meet the Time Warp Trio—six amazing kids who will take you on action-packed adventures to confront Samurai in Shogun-era Japan, duel with gladiators in Ancient Rome, and even outwit a nasty priest in Ancient Egypt. Whenever the Book is opened, it leaks green time warping mist and whisks them away to places throughout history. The kids must use their wits, skills (skateboarding, baseball, magic) and their smarts to outwit the Bad Guys and survive. Based on The Time Warp Trio™ books written by Jon Scieszka and illustrated by Lane Smith. 26x23
WILD NORTH AMERICA

Discover the amazing wildlife of North America.

Season 1: 5x60 HD
Under the Volcano
The snowy crests of the Cascades conceal the most active volcanoes in the continental U.S. Foxes thrive on their slopes, tailed frogs mate in rocky streams, and pine martens hunt in the alpine forests, but the mountains have a violent past and an uncertain future.

Rise of the Redwood Giants
Coastal California is home to one of the world’s oldest and most iconic residents—the redwoods. Thousands of convergent ladybugs use their roots to mate and hibernate while the wandering salamander can spend its entire life in the redwood canopy.

Glacier Land
The incredible force of glaciers shaped breathtaking landscapes, creating a home for the wildlife living within them. The delicate environment that so many animals from the mighty grizzly bear to the nimble pika call home dwindles away with the ever-heating sun.

Shadow of the Rockies
From bears to beetles and bighorn sheep to mountain lions, life in the Colorado Rocky Mountain range is as resilient as it’s wildlife, regardless of whether they’re big or small.

Golden Coast
Bus-sized humpback whales pause their migration north to snack on anchovy swarms. Elephant seals duel for control of the beach... and the mating rights that follow. The Golden Coast is a wild land, from its tallest hills to its deep, underwater canyons.

Season 2: 5x60 HD
Death Valley
Death Valley is known as one of the hottest, most inhospitable places in North America. Yet against all odds—there is life in the tortoises, roadrunners, and coyotes that call the desert their home.

The Good, the Bad, and the Deadly
From a coterie of black-tailed prairie dogs just beyond the ranch fences, to a black widow spider in the barn stalls, there is much more to a Texas ranch than meets the eye.

Desert’s Edge
From the looming peaks of the Chisos Mountains to the unforgiving Chihuahuan Desert below, see how this Desert’s Edge is teeming with life.

Bat-nado
As the sun sets, head inside this Bat-nado to uncover an underworld bursting with life. Bracken Cave is home to a Mexican-Free-Tailed bat maternity colony, currently forty million strong. Despite so much life, death looms on the cave edges.

Gatorlands
Travel down the Sabine River and uncover all the life, from American alligators to leafcutter ants, residing in the Gatorlands along the Texas-Louisiana border.

Season 3: 5x60 HD
Mighty Mississippi
At America’s center, the Mississippi, Missouri and Ohio Rivers combine their strength and transform into a juggernaut that splits the nation. Thousands of snow geese arrive with winter, and river otters hunt within breaks in the ice.

The Badlands
East meets Wild West in the Badlands of South Dakota. Herds of bison roam the grasslands—as much at home as the mustangs on a nearby mountain plateau. Pronghorn and elk test their antlers for the right to mate. Just like the frontier heroes before them, cowboys navigate this land of rugged beauty by horseback.

The Land of Ten Thousand Lakes
Northern Minnesota—the Land of Ten Thousands Lakes—is a lush realm of forests and wet bogs. But in winter, it’s governed by snow and ice. Timber wolves search widely with their powerful noses, while great greys—the largest owls in North America—plunge deep into the snow for a meal.

Secret Life of a Farm
Within the hidden life on a farm, wildlife in America’s heartland often face a life fraught with risk and danger. In order to share the abundant ecosystem with farmers and their tools, caution rules for animals on the fringes.

Into the Appalachians
The Great Appalachian Valley is home to some of America’s greatest stories and legends. Today, the critters hunted by the likes of Davy Crocket and Daniel Boone still thrive in this little-known strip of wilderness. In the shadows of the mountain range, skunks, raccoons and coyotes are just some of the wild players who continue to embody a frontier spirit.
