1000 Days of Fear is the inside-the-barbed-wire story of the brilliant men and women who worked on the Manhattan Project at Los Alamos. The fascinating personalities behind the creation of the world's first atomic bomb were as extraordinary, and often as explosive, as the science they were working in.

Through first-hand accounts, never-before-seen interviews, and Los Alamos lore, this documentary looks inside these atomic insiders' hearts and minds, their triumphs and failures, their bravery in the face of paralyzing fear and, ultimately, their war-winning and world-changing accomplishments.
